WTSC Conference Call 10/18/01

Attendees:
Jennifer Chartraw	AWS
Mark Wood	Cingular
*Charlie Case	Alltel
*Stephen Sanchez	AWS
Ron Dejonkhere	AWS
Jim Grasser	Cingular
Rebecca Tyus	Cingular
Maggie Lee	Illuminet
Gerri Scillitani	Nextel
Farid Zaffir	Nighfire
*Dave Alexander	Sprint PCS
*Ron Whitson	Sprint
*Will Knoblauch	Telecom Software
*Renee Range	Telecorp PCS
Bob Jones	U.S. Cellular
*Julie Groenen	Verizon Wireless
Chuck Dobsley	Verizon Wireless
P.J. Garcia	Williams
*Stephen Bynoe	Worldcom

*TEST SPOC

Introductions
Renee Range will be the new test SPOC for Telecorp PCS, replacing Tiffany Belk.
Joe Gormley (not on the call) will be the new test SPOC for Qwest Wireless.

Upcoming Meetings (Action Item #8)
- Next face to face meeting is in Atlanta, GA on November 6-7. Travel information on WTSC website.
- December meeting will be in San Diego, hosted by Telcordia. Hotel/meeting site are still being determined.
- January 2002 meeting – UNOFFICIAL (i.e. – don't book your flight yet) Cingular is looking into hosting WTSC in conjunction with WNPO/LNPA and wireless pooling team January 7-10 in Orlando, FL area. We hope to provide meeting site before meeting in Atlanta
- February-June 2002 meetings – Sites, dates, and hosts are confirmed. See wtsc-meetings-2002 on WTSC website.

Industry update
IITC – asks how many GETS (Govt emergency tel. #s) we need for testing. We will follow up with IITC for clarification on purpose of this test.

From Jim Grasser –
WNPO's risk document will be sent to FCC asking them to get directly involved (bypassing the NANC) if the rollout of WLNP is in jeopardy.

ICP document is not related to pooling and should not impact testing

NNPO or OBF flows for resellers (support NNPO) – wireline porting only

Issue of reseller flow should not impact testing.

Wireline carriers looking for a wireless test schedule to know when to be ready to test afterward.

Action Item Review
WTSC Non-document
#13 – Inter-carrier test guidelines has been modified. We will review in more detail in Atlanta.

WNPO
#2 - Wireline SOAs do not populate actual time of port. Issue is being discussed at LNPA. Proposal for wireline carriers to submit SOA activation differently based on port to wireline or wireless carrier.

#3 – WNPO will submit a letter on behalf of WTSC to LLC asking that the regions for upgrading NPAC release 3.1 are not changed. NPAC 3.1 upgrades are scheduled between Feb 2002 and May 2002. Regions have not been assigned yet. By keeping the regions in place, the WTSC and associated SPs can test on a few regions on NPAC version 2.0 and the rest on version 3.1.

NOTE – Version of NPAC software should have no direct impact on inter-carrier testing.
